These boats run in connection with the well known steam packets Georgia and South Carolina which leave Norfolk every Saturday for Charleston, giving travellers a choice. They also rull's connection with the James River boats to Peterburg and Rickmond. Strangers are informed (old travellers know) that this is the cheapest and most comfortable route for southern travellers, as there are no changes from cars, steamboats, and stages in the dead of night, as on the Washington route. The company therefore hope the travelling part of the community will patronise them, in giving equal facilities and superior comfort.

TO ARCHITECTS, BUILDERS, AND OTHERS—
The subscribers would respectfully inform builders and streets, that they have constantly on hand, and are prepared to furnish at short notice, architectural ornaments of every description, "for the interior finishing of dwellings, churches, and other public buildings," vizz capitals for columns, and antæ do. to all the orders of architecture, consoles, trusses, enriched mouldings, resettes, patares, frieze ornaments, &c. &c. &c. to any size. The long proved quality of composition ornaments, as executed by them, renders it useless to say much in its eulogy; and, with the means they possess, and from long practice in the execution of models, moulds, and every department of business, flatter themselves that for boldness of relief, and general sharpness and beauty, their work will be found much superior to any thing of the kind done in any other place, they having avoided that tiny, flat and undefined appearance, so much and so justly complained of. Great attention having been paid to the medes of manufacture, to insure the best quality, at the lowest possible price, they are happy to say that their present scale of prices will be found to be beyond the reach of abatement or competition.

Builders out of New York, in any part of the United States, would find a material saving, and likewise procure a superior article by calling or writing for any thing of the kind they may require, as we have en hand, and are enabled to fill orders to any amount at very shortnotice

PRICE NOT THE TEST OF CHEAPNESS.
Political economists have frequently differed as to what was a fair, and at the same time, the surest measure of value; but we never yet came across any one who had gravely recorded it to be his opinion that the nominal price any article sold for, was any measure of its actual value. Such a netion would be deemed so great a fallacy, that its statement on paper as a logical deduction, would prove its own absurdity, and yet, those in dividuals who run about from one store to another for the purpose of ascertaining the minimum number of dollars and cent at which they can be furnished with articles of food and raiment, of course commit a still greater, because a more practical absardity, than any speculative philosopher would do, who sat down in his closet to argue from such false premises. The one would merely be laughed at as a visionary schemer; but the other is deemed fit only to graduate among the philosophers of Laputa, who contemplated making deal board out of Sawdust, and extracting sunbeams from cucumbers. Taking that most important of all articles to men in this dressing age.

1st, There is the raw material, and secondly, the quality of the dye used and the degree of skill possessed by the manufacture of the cloth. These primordial ingredients towards a coat, title of vicinity and the still of the cutter, the quality of the trimmings, and last, though not least, the scientific qualifications which the artist may possess, who is to send it "into this breathing world," not "a thing of shreds and patches," but as article of beauty, utility and luxury fated either to adorn, or descerate the human forms. Other reasons could be adduced to show that in coats, at least, many things, which the world at large thinks act of, should be taken into consideration befor

NO CURE NO PAY—SANDS' REMEDY FOR THE

FALL RIVER, Mass. May 8, 1838.

Messrs. A. B. & D. Sands — Ihad been afflicted with the Salt Rheum in its severest form for several years, and at times it was so had on my nand and an different parts of my body, as almost to preven im vattending to business. I had made use of a great number of different preparations without obtaining but little if any benefit, and I became so much discouraged that I resolved to use no more unless I could procure one warranted to cure. Hearing of your valuable Remedy, I went to Providence and purchased one dozen of it, confident that if it cured me I could dispose of hundreds of boxes. I used it immediately—perceived that it benefitted ms—and after using it a few weeks, I was cured entirely, and my skin was as fair as if I never had had it. It is now about two years since I was cured, and since that time I have been entirely free from it. I have since sold hundreds of boxes to my friends and customers, and it has been used with almost universal success in every instance. One lady, who called on me for it, had the complaint so bad en her face, that I could hardly bear to look at her. She hought one box, and in less than one week, she was comparatively cured—the used only two boxes, which entirely cured her. In short, such has been its success in curing fisca es of the skin, that I think I should do those injustice who are similarly afficied did I not let them know the peculiar benefit which I have received, and which I have known hundreds of others to receive from the use of your valvable remedy. Truly yours, &c.

EDWIN PORTER, Merchant. Fall River.

It is with much satisfaction that the proprietors are able to lay the above Certificate before the public, that all may see and know the great benefit which one individual is able to certify to having received, and known others to receive from the use of this valuable medicine. Not only for Salt Rheum, but for all other diseases of the skin, such as ring worm. Tetter, Scald Head, Barber's or Jackson litch, Eczema, &c., this medicine is also a certain cure. The Syrup of Sarsaparilla is recommended to be used with the Remedy, as it tends to purify and throw out from the blood and system all the unhealthy humer connected with the disease, and the application of the Remedy at the same time, entirely eradisates it from the system. Numerous instances have occurred where this course has effected cures in one week's time. Every person afflicted with these complaints in any form, is invited to make immediate use of this valuable medicine, and get cured without delay. It is warranted to cure, or the money will be refunded.

GREAT ECONOMY IN TEETH.—J. R. WAKEFIELD, M. D., Deatist, office 2804 Breadway, respectfully informs the public that he has determined to reduce his prices of dental operations to less than one third his usual terms, and will therefore in future insert Stockton's best mineral Silectious Teeth at only two dollars each. The usual charges for those teeth, (which are unequalled in this country or Europe,) are frem \$5 to \$10 each. Teeth handsenely inserted (from one to an entire set) upon gold plates, proportionably low, and every other operation upon the teeth executed in a superior manner and at similar reduced prices, all of which will be warranted. Dr. Wakefield has been engaged in his profession for ten years, the last five of which has been principally in Philadelphia, and has hitherto charged the same prices as other members of the profession, but has after much reflection resolved to adopt the cheap cash system, and thus place it in the power of all classes to preserve and improve those necessary organs, the teeth.
